

Best FZE TOC (Tailored Original Content)

Last updated **August 2021**

What is TOC

Tailored: fits you
Original: created for you
Content: provided only to you

The content provided to you is created to fit your needs and requirements. It has not been and never will be provided to anybody else.

People are different in personality, behavior, and mindset: this means they process information differently. The way your mind interprets every color is unique, so no one can see colors the same way you do.

If diversity is in human nature, how come it isn't an essential part of our content? Best framed this concept to be implemented into all of our services and activities. We don't only consider your needs, we act based upon them.

TOC is generated and owned by Best.

We reserve the right to take legal actions against anyone who tries to copy our initiative.

TOC applies to any and all of our activities and training programs, except for the ones that fall under academic programs (STEM-TOC)
